TABLE OF CONTENTS

Study Session 1:

2012 IPC Chapter 1—Scope and Administration	1
Quiz	21

Study Session 2:

2012 IPC Sections 301– 307— General Regulations I	27
Quiz	41

Study Session 3:

2012 IPC Sections 308– 316—General Regulations II	47
Quiz	61

Study Session 4:

2012 IPC Sections 401 – 411—Fixtures, Faucets and Fixture Fittings I	67
Quiz	88

Study Session 5:

2012 IPC Sections 412 – 427—Fixtures, Faucets and Fixture Fittings II	95
Quiz	116

Study Session 6:

2012 IPC Chapter 5—Water Heaters	123
Quiz	141

Study Session 7:

2012 IPC Sections 601 – 605—Water Supply and Distribution I	147
Quiz	163

Study Session 8:

2012 IPC Sections 606 – 613—Water Supply and Distribution II	169
Quiz	188

Study Session 9:

2012 IPC Sections 701 – 707—Sanitary Drainage I	195
Quiz	209

Study Session 10:

2012 IPC Sections 708 – 715—Sanitary Drainage II	215
Quiz	233

Study Session 11:	
2012 IPC Chapter 8—Indirect/Special Waste	239
Quiz	256
Study Session 12:	
2012 IPC Sections 901 – 909—Vents I.....	263
Quiz	279
Study Session 13:	
2012 IPC Sections 910 – 920—Vents II	285
Quiz	301
Study Session 14:	
2012 IPC Chapter 10—Traps, Interceptors and Separators	307
Quiz	327
Study Session 15:	
2012 IPC Chapters 11, 12 and 13—Storm Drainage, Special Piping and Storage Systems and Gray Water Recycling Systems	333
Quiz	354
Answer Keys	361

INTRODUCTION

This study companion provides practical learning assignments for independent study of the provisions of the 2012 *International Plumbing Code*[®] (IPC[®]). The independent study format affords a method for the student to complete the program in an unregulated time period. Progressing through the workbook, the learner can measure his or her level of knowledge by using the exercises and quizzes provided for each study session.

The workbook is also valuable for instructor-led programs. In jurisdictional training sessions, community college classes, vocational training programs and other structured educational offerings, the study guide and the IPC can be the basis for classroom instruction.

All study sessions begin with a general learning objective specific to the session, the specific code sections or chapter under consideration and a list of questions summarizing the key points of study. Each session addresses selected topics from the IPC and includes code text, a commentary on the code provisions, illustrations representing the provisions under discussion and multiple choice questions that can be used to evaluate the student's knowledge. Before beginning the quizzes, the student should thoroughly review the IPC, focusing on the key points identified at the beginning of each study session.

The workbook is structured so that after every question the student has an opportunity to record his or her response and the corresponding code reference. The correct answers are found in the back of the workbook in the answer key.

Although this study companion is primarily focused on those subjects of specific interest to plumbing inspectors and contractors, it is a valuable resource to any individuals who would like to learn more about the IPC provisions. The information presented may be of importance to many building officials, plans examiners and combination inspectors.

The 2012 *International Plumbing Code Study Companion* has been completely revised and updated from previous editions. Steve Van Note of ICC was responsible for developing the updated content with assistance from ICC staff members Fred Grable and Lee Clifton.

The information presented in this publication is believed to be accurate; however, it is provided for informational purposes only and is intended for use only as a guide. As there is a limited discussion of selected code provisions, the code itself should always be referenced for more complete information. In addition, the commentary set forth may not necessarily represent the views of any enforcing agency, as such agencies have the sole authority to render interpretations of the IPC.

Questions or comments concerning this study companion are encouraged. Please direct your comments to ICC at studycompanion@icc-safe.org.

About the International Code Council

The International Code Council® (ICC®) is a member-focused association dedicated to helping the building safety community and construction industry provide safe, sustainable and affordable construction through the development of codes and standards used in the design, build and compliance processes. Most U.S. communities and many global markets choose the International Codes®. ICC Evaluation Service (ICC-ES), a subsidiary of the International Code Council, has been the industry leader in performing technical evaluations for code compliance fostering safe and sustainable design and construction.
